

Sudbury Master Plan Update

Truck Day Event Summary

The Master Plan Steering Committee participated in Goodnow Library's annual Truck Day event held on July 10, 2019. Town departments such as Public Works, Police, and Fire displayed their vehicles, and kids were able to touch, honk, and climb to take pictures. In addition to the displays, various town departments also set up booths to educate attendees about different topics. At the Master Plan Update booth, kids stopped by to color and played with bubbles. They also had an opportunity to tell us what they love to do in town by playing "Spin the Wheel." The wheel listed different activity categories and based on the activity they landed on they were able to tell us where they like to do that activity. With the help of their parents (who also took a chance to spin the wheel), we received over 50 responses.

We were also able to talk about the master plan update with parents and provide them with information on how to get involved.

Below is the summary of all the responses.

1. Enjoy the outdoor
 - a. Smile Park (2x)
 - b. Backyard at home
 - c. Loring Playground
