RE: Cold Brook Crossing, Site Plan Review

Dear Beth,

I have reviewed the Site Plans for Cold Brook Crossing and I am satisfied that Quarry North has met all requirements by the Sudbury Water District. The District also hired the services of Dr. Ed Chiang of H2O Engineering to review the site plans as well as Quarry North's proposed groundwater mounding analysis, hydrogeological report and WP83 permit application for their groundwater discharge permit. Dr. Chiang provided feedback throughout his review and is also satisfied that the site plans meet the District's requirements.

Please call me if you have any questions.

Sincerely,

Vincent J. Roy,

EXECUTIVE DIRECTOR

Vincent J. Roy
