### **AMBULANCE - FEE SCHEDULE**

The Town establishes ambulance service rates to ensure the recovery of costs associated with providing emergency medical transportation. These rates are set to reflect a reasonable approximation of the expenses incurred, including personnel, equipment, maintenance, and administrative overhead.

Ambulance fees typically include a base rate—which varies depending on the level of service provided (Basic Life Support, Advanced Life Support I, or Advanced Life Support II)—as well as mileage charges calculated per mile of patient transport.

The Select Board reviews ambulance rates annually, with input from Fire Department and Finance staff, to determine if adjustments are needed based on service costs, billing trends, and Medicare/Medicaid reimbursement changes.
