Eversource 115 kV Transmission Project Update

Greetings!

BOND Civil & Utility Construction and their subcontractors (ET&L Construction, M-O-N Landscaping Inc., and Moosehead LLC) are continuing activities on the Eversource 115 kilovolt (kV) Underground Transmission Line Project. The schedule this week calls for construction from Monday to Wednesday and Friday. Crews will **NOT be working on Thursday (November 24)** and will resume with a normal schedule (Monday to Friday) on November 28. Construction activities are not expected to interrupt electric service.

Project Route Map

Brianna Germain, from the Eversource Project Outreach Team, is hosting **Office Hours** on Thursday, **December 8**, from 12 p.m. – 3 p.m., at the Sudbury Police Department Training Room (75 Hudson Road). Please reply to this message if you are interested in attending on December 8. Otherwise, feel free to respond to this email, or call the Project Hotline at **1-833-836-0302** with questions.

Work Hours

Approved work hours for the Project are 7 a.m. to 6 p.m., Monday to Friday but crews will be typically working from **7 a.m. to 3:30 p.m.** Occasional activities may extend beyond the approved hours, due to unforeseen conditions (weather), based on feedback from municipal officials.

Hudson

- **Between Wilkins Street and Chestnut Street** in the Massachusetts Bay Transportation Authority (MBTA) inactive rail corridor, BOND is clearing vegetation within the limits of work. Crews may also be active between Parmenter Road, and White Pond Road in the inactive rail corridor. Vegetation clearing in Hudson is expected to last through the end of the month, with rail and tie removal starting next week off of White Pond Road.
- **Off Forest Avenue**, one crew is installing the first vault (MH1) and duct bank (600 feet) on Hudson Light & Power (49 Forest Avenue) property. Additional construction will start on Forest Avenue starting in the Spring of 2023.

Sudbury

- **In the inactive MBTA corridor**, crews will continue installing sediment and erosion controls moving east toward the Eversource Sudbury Substation (163 Boston Post Road). Initial vegetation clearing is expected to happen in early December.
- **Off Boston Post Road**, at the Eversource Sudbury Substation, G. Greene Construction, another Eversource contractor, is making upgrades to electrical equipment inside the Substation. G. Greene Construction is excavating foundations and moving earth to make room for new equipment. Construction activities for this portion of the Project are within the fence line of the Substation (Eversource property) and will be completed in 2023. G. Greene Construction will NOT be working at the Substation on November 24.

Stow

- **Near Chestnut Road**, crews have started to install sediment and erosion controls in the inactive MBTA rail corridor.
-

Typical Construction

Pictured to the right is some of the area excavated in Hudson near the location of the first vault (MH1) at Hudson Light & Power.

Stay Informed

Eversource is committed to being a good neighbor and doing any work with respect for you and your property. If you have questions or concerns, please contact us using one of the methods below.

- Dial **1-833-836-0302**
- Email ProjectInfoMa@eversource.com
- Visit the [website](#) for this project
- View the [interactive project map](#)
- View information on [rail trail access](#) during construction
- **Field outreach representatives** will be in touch with notices updating you on construction activities.
