Eversource 115 kV Transmission Project Update

Greetings!

Eversource’s approved contractor BOND Civil & Utility Construction and their subcontractors (ET&L Construction, M-O-N Landscaping Inc., and Moosehead LLC) resumed work on the 115 kilovolt (kV) Underground Transmission Line Project this week. This project is designed to improve the reliability of the electric system serving the area.

The schedule calls for construction from **Monday to Friday** for the next several weeks. Construction is not expected to interrupt electric service.

Project Route Map

Brianna Germain, from Eversource Project Outreach, is hosting **Office Hours** on Thursday, December 8, from 12 p.m. – 3 p.m., at the Sudbury Police Department Training Room (75 Hudson Road). Please reply to this message if you are interested in attending. If you are unable to attend and have questions, feel free to respond to this email, or call the Project Hotline at **1-833-836-0302**.

Work Hours

Approved work hours for the Project are from 7 a.m. to 6 p.m., Monday to Friday but crews are working from **7 a.m. to 3:30 p.m.** Occasional work may extend beyond the approved hours, due to unforeseen conditions, based on feedback from municipal officials.

Hudson

- **Between Wilkins Street and White Pond Road** in the inactive Massachusetts Bay Transportation Authority (MBTA) rail corridor, crews are clearing vegetation, installing sediment and erosion controls within the limits of work, and starting to remove rails and ties in specific areas. Starting next week, near White Pond Road, crews will begin grading work areas which includes the removal of soils.
- **Off Forest Avenue**, one crew is installing a small section of duct bank on Hudson Light & Power (49 Forest Avenue) property, moving south from the recently installed vault (MH1) to the Hudson Substation.

Sudbury

- **In the inactive MBTA rail corridor**, crews will begin clearing vegetation, starting at the Hudson Town line, and moving toward the Sudbury Substation (163 Boston Post Road), next week. Erosion controls will be added to the limits of work afterward.
- **Off Boston Post Road**, at the Eversource Sudbury Substation, G. Greene Construction is making upgrades to electrical equipment inside the Substation. G. Greene Construction is excavating foundations and moving earth to accommodate new equipment. Construction activities for this portion of the Project are within the fence line of the Substation and on Eversource property.

Stow

- **Near Chestnut Road**, erosion controls have been installed in the limits of work and vegetation clearing has started. A small portion of the Project, less than 400 feet, falls within the Town of Stow.
-

Typical Construction

Pictured to the right is some of the area excavated in Hudson near the location of the first vault (MH1) at Hudson Light & Power.

Stay Informed

Eversource is committed to being a good neighbor and doing any work with respect for you and your property. If you have questions or concerns, please contact us using one of the methods below.

- Dial **1-833-836-0302**
- Email ProjectInfoMa@eversource.com
- Visit the [website](#) for this project
- View the [interactive project map](#)
- View information on [rail trail access](#) during construction
- **Field outreach representatives** will be in touch with notices updating you on construction activities.
