## Eversource 115-kV Project Update

Greetings!

Members of the community can expect to see construction at several sites in Sudbury, Stow, and Hudson related to the Eversource 115-kilovolt (kV) Underground Transmission Line Project. **Eversource asks people to avoid walking on the inactive Massachusetts Bay Transportation Authority (MBTA) rail corridor.**

### Work Hours

Approved work hours are 7 a.m. to 6 p.m., **Monday to Friday** but crews are working from **7 a.m. to 4 p.m.** in most areas. Occasional work may extend beyond the approved hours, due to unforeseen circumstances, based on approval from local officials

Crews are working between manholes (MHs) that have been placed in the road or inactive MBTA corridor. Below is an overview of the active work zones. [View the project map](#) for additional details on the location of work crews.

### Hudson

- **On Forest Avenue, between Richardson Street and Main Street**, two crews are excavating and installing duct bank from **7 a.m. to 5 p.m.**, From 7 a.m. to 9 a.m. Forest Ave will have west bound traffic open to Forest Avenue Elementary School. From 9 a.m. to 5 p.m. Forest Avenue in this zone will be closed and only be open to local traffic and other vehicles are asked to follow detour signage during work hours. Eastbound traffic will detour up Woodrow Street to Main Street. Westbound traffic will detour down Main Street to Villa De Porto Boulevard and will detour left up Grove Street to get back onto Forest Ave.
- **At bridge 130 between Chestnut and Main Street**, one will begin abutment excavation and installing walers (beams) next week.
- **On Chestnut Street, north of Lewis Street**, crews have started to restore the roadway and will begin placing fencing in the coming weeks. This portion of Chestnut Street is closed until November and is only open to local access up to the MBTA crossing at Chestnut Street/Marlboro Road. Road restoration will begin in the coming weeks.

### Sudbury

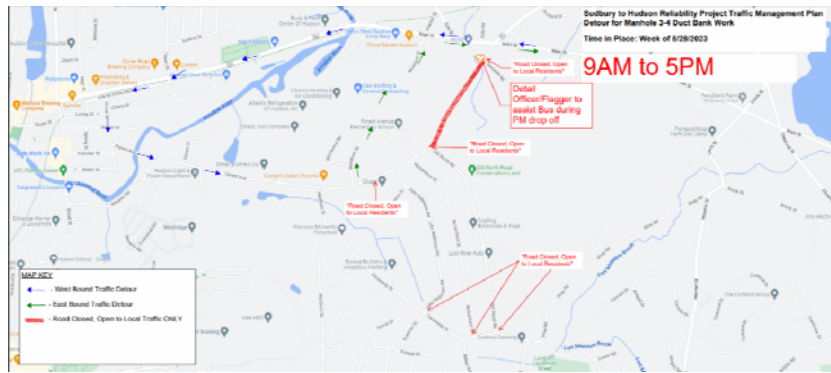

- **Between Bridge 128 and the Town Line**, crews are working on installing duct bank between two previously installed manholes.
- **Between Dutton Road and Peakham Road**, crews are working on installing duct bank between previously installed manholes. This work will continue over the next few weeks.
- **At Union Ave where the MBTA corridor intersects**, crews will be working to install duct bank under the roadway. This work is anticipated to happen at night, between the hours of 8 p.m. - 5 a.m., based on approval by Town officials.
- **At Bridge 127**, crews are working to pour concrete slabs and back walls.
- **Between Bridge 127 and the Sudbury Substation**, crews will be working to install duct bank between previously installed manholes. This work will be ongoing for the next several weeks.

*\*Due to the complexities of underground construction and weather, the two-week schedule described above is subject to change.*
