Website

## Eversource 115-kV Project Update

Greetings!

This is an update on activities related to the Eversource 115-kilovolt (kV) Underground Transmission Project. The new transmission line has been installed underground in the inactive MBTA corridor and streets of Hudson. The line is now in service, but we will be completing some final restoration activities over the coming weeks. From there, Eversource will turn over work in the inactive MBTA corridor to the [Massachusetts Department of Conservation and Recreation](#) (DCR) who are in the process of installing the new shared-use rail trail.

### Sudbury Activities

- **Starting as early as May 11, at Boston Post Road where the MBTA corridor intersects with the roadway**, crews will be working to relocate a portion of a

town-owned water line. *This work will be completed at night between the hours of 9 p.m. - 5 a.m., Sunday through Thursday.*

**A detour on Station Road will be in place to accommodate this work.**

- **As early as May 27**, crews will be completing final pavement restoration at road crossings in Sudbury where the MBTA corridor intersects. The road crossings include the following roads:

- Horse Pond Road
- Union Ave
- Boston Post Road

***We expect these restoration activities to be complete in three to four weeks***

Both Union Ave and Boston Post Road repaving activities will take place during nighttime hours, from 9 p.m. - 5 a.m., Sunday through Thursday. A detour on Station Road will be in place to accommodate this work.

The work on Horse Pond Road will take place during daytime hours, between 7 a.m. - 6 p.m.

*\*Due to the complexities of underground construction and weather, the two-week schedule described above is subject to change.*

---

## Stay Informed

Eversource is committed to being a good neighbor and doing any work with respect for you and your property. If you have questions, please contact us directly or click on one of the resources below.
