

April 14, 2025

Town Manager Sheehan & Sudbury Select Board,

We are thrilled to announce that we have hired a new Director! Becky Gilles officially joined the team in February. Becky began work in the summer camp field at a YMCA camp in Wisconsin when she was 16 years old, and has been at it ever since! Most recently, she spent 17 years working for Mass Audubon summer camps as the Director of the Drumlin Farm Day Camp and then Wildwood Overnight camp. Becky has slid effortlessly into the role, participating in hiring and planning during the off season, and we can't wait to see her welcome campers to the property with us in a few short months.

Spring is always a busy time for our year round team at Sewataro. We are hard at work filling the few remaining spaces available for both campers and staff, and finalizing our plans for training. We had a visit with Tina Rivard, Sudbury's Public Works Director and her team a few weeks ago to discuss our trees, and are excited to welcome the newest members of Town Staff to the property this week for a tour.

With the nicer weather (slowly) returning to New England, there have been an influx of requests by residents and resident groups to reserve the pavilions. We love to see people enjoying the property in all seasons, but the return of warmer temperatures is very welcome by this point in the year!

We are also looking forward to welcoming Sudbury residents onto the property on June 12 for our annual Spring Event. This year we are hosting a 'backyard BBQ' with lawn games, inflatables, and a 9-hole mini golf course! Local favorite Juliana's will be selling made-to-order pizzas. We hope to see you there!

With gratitude,
The Sewataro Team
